

Restylane[®]

Actual patient. Individual results may vary.

FOR ANY AND EVERY LOOK

The original hyaluronic acid filler designed
to bring every exceptional look to life.¹

Restylane

THIS IS MY LOOK

A SUBTLE REFRESH. A DRAMATIC EDGE.

With Restylane fillers, your look is up to you.

Each Restylane filler is designed for a distinct aesthetic purpose with technology formulated to act like your skin's own hyaluronic acid (HA). So you can own any changes to your look.^{3*}

55 million treatments
worldwide²

Proven results that last
up to 12 to 18 months
after treatment^{1*}

The original HA filler, with
over **26 years of experience**
worldwide²

Restylane® is the first non-animal-based HA filler,
IN GLOBAL USE SINCE 1996²

**PROVEN SAFETY ACROSS A DIVERSE RANGE
OF SKIN COLORS, TONES, AND TYPES.^{4†}**

^{*}Depending on product and area treated.

[†]NASHA® Technology.

AREAS OF USE

- ① CHEEKS
- ② SMILE LINES
- ③ PERIORAL LINES
- ④ LIPS
- ⑤ MARIONETTE LINES
- ⑥ CHIN
- ⑦ HANDS

SCIENCE THAT'LL MAKE YOU LOOK

Actual patient. Individual results may vary.

MEET OUR TECHNOLOGIES: NASHA® AND XpresHAN TECHNOLOGY™

We all have hyaluronic acid (HA) in our bodies to support skin fullness and elasticity.¹²

Restylane® fillers use an HA gel formulation that is the closest to our body's own HA, with minimal cross-linking.^{3*}

Clinically proven to maintain naturalness of facial movement and dynamic expression over time.^{13†}

RESTYLANE FILLERS FOR NATURAL-LOOKING RESULTS THAT HELP YOU:

AGE GRACEFULLY: As we age, we lose fat, collagen, and bone, causing HA levels to decline, which can lead to visible signs of aging like wrinkles, folds, and diminished volume—which Restylane fillers can help.¹⁴

DEFINE YOUR LOOK: Definition, volume, subtle enhancements—Restylane fillers can help you achieve the personalized look you want.^{15,16}

These 2 HA technologies complement each other for results that help you achieve your unique look that you can see immediately.¹⁷

NASHA® TECHNOLOGY

A firm gel texture suited for providing natural structure with lift and projection.^{16,18}

RESTYLANE®
LYFT

RESTYLANE®

RESTYLANE®

STRUCTURE & DEFINITION

RESTYLANE®
LYFT

Actual patient. Individual results may vary.

LOVE YOUR LYFT

RESULTS THAT
LAST UP TO
1 YEAR⁵

100%

of patients thought
their results were
NATURAL LOOKING
after treatment
with Restylane Lyft^{19*}

96% of patients agreed their appearance
was improved after treatment with
Restylane Lyft^{19*}

AREAS
OF USE

MIDFACE
CHEEK
HANDS⁵

*Patients (clinical trial subjects) had cheek treatment with either Restylane Lyft (N=30) or Restylane® Contour (N=30) in a clinical study. Patients were assessed at 8 weeks.

Please see full Important Safety Information on page 20.

DYNAMIC DEFINITION

RESTYLANE®
DEFYNE

98%

of patients had improved double-chin appearance after treatment with Restylane Defyne^{20*}

Actual patient. Individual results may vary.

DEFYNE YOUR LOOK

BEFORE

Treated with 2.6 mL of Restylane Defyne in the chin. Individual results may vary.

AFTER

**RESULTS THAT
LAST UP TO
1 YEAR⁷**

RECOGNIZE CHIN RETRUSION

**No
retrusion**

**Mild
retrusion**

**Moderate
retrusion**

**Substantial
retrusion**

Restylane Defyne is indicated for augmentation of the chin region to improve the chin profile in patients with mild to moderate chin retrusion over the age of 21.⁷

AREAS
OF USE

**NASOLABIAL
FOLDS
MARIONETTE
LINES
CHIN⁷**

*Patients (clinical trial subjects; N=60) were treated with Restylane Defyne in the nasolabial folds (NLFs), marionette lines (MLs), and chin in a clinical study. Patients were assessed at 9 weeks.

Please see full Important Safety Information on page 20.

NATURAL, SUBTLE CONTOURING

RESTYLANE®
CONTOUR

Actual patient. Individual results may vary.

8 of 10
patients thought
they looked less tired
after treatment with
Restylane Contour^{19*}

CONTOUR'ED RESULTS

BEFORE

Treated with
3.5 mL of
*Restylane
Contour*
in the cheeks.
Individual results
may vary.

RESULTS THAT
LAST UP TO
18 MONTHS^{1,6}

100% of patients thought their results
were natural looking after treatment
with *Restylane Contour*^{19*}

AREAS
OF USE

MIDFACE
CHEEK⁶

*Patients (clinical trial subjects) had cheek treatment with either *Restylane Lyft* (N=30) or *Restylane Contour* (N=30) in a clinical study. Patients were assessed at 8 weeks.

NATURAL LIP ENHANCEMENT

^{1*}Based on a survey of 295 current and potential users of dermal fillers who were asked, "For which of the following reasons have you considered and/or received HA-based dermal filler(s)?"
Data on file from Galderma as of July 1, 2022.¹

IMPORTANT SAFETY INFORMATION

The Restylane family of products are indicated for patients over the age of 21, and includes *Restylane*®, *Restylane-L*®, *Restylane*® *Lyft with Lidocaine*, *Restylane*® *Silk*, *Restylane*® *Kysse*, *Restylane*® *Refyne*, *Restylane*® *Defyne*, and *Restylane*® *Contour*.

APPROVED USES

Restylane® and *Restylane-L*® are for mid-to-deep injection into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds. *Restylane*® and *Restylane-L*® are also indicated for injection into the lips.

Restylane® *Lyft with Lidocaine* is for deep implantation into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds and for cheek augmentation and for the correction of age-related midface contour deficiencies. *Restylane*® *Lyft with Lidocaine* is also indicated for injection into the dorsal hand to correct volume loss.

Restylane® *Silk* is for lip augmentation and for correction of perioral wrinkles.

Restylane® *Kysse* is for lip augmentation and for correction of upper perioral wrinkles.

Restylane® *Refyne* is for mid-to-deep injection into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds.

Restylane® *Defyne* is for mid-to-deep injection into the facial tissue for the correction of moderate to severe deep facial wrinkles and folds, such as nasolabial folds. *Restylane*® *Defyne* is also indicated for injection into the mid-to-deep dermis (subcutaneous and/or supraperiosteal) for augmentation of the chin region to improve the chin profile in patients with mild to moderate chin retrusion.

Restylane® *Contour* is for cheek augmentation and for the correction of midface contour deficiencies.

Do not use if you have severe allergies with a history of severe reactions (anaphylaxis), are allergic to lidocaine or gram-positive bacterial proteins used to make hyaluronic acid, prone to bleeding, or have a bleeding disorder. The safety of use while pregnant or breastfeeding has not been studied. Tell your doctor if you have a history of scarring or pigmentation disorders as these side effects can occur with hyaluronic acid fillers. Tell your doctor if you are planning other cosmetic treatments (i.e., lasers and chemical peels) as there is a possible risk of inflammation at the injection site.

Tell your doctor if you're taking medications that lower your body's immune response or affect bleeding, such as aspirin or warfarin, as these medications may increase the risk of bruising or bleeding at the gel injection site. Using these products on gel injection sites with skin sores, pimples, rashes, hives, cysts, or infections should be postponed until healing is complete.

The most common side effects are swelling, redness, pain, bruising, headache, tenderness, lump formation, itching at the injection site, and impaired hand function. Serious but rare side effects include delayed onset infections, recurrence of herpetic eruptions, and superficial necrosis at the injection site. The risk of unintentional injection into a blood vessel is small but can occur and could result in serious complications, which may be permanent, including vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring of the skin. As with all skin injection procedures, there is a risk of infection.

To report a side effect with any *Restylane*® product, please call Galderma Laboratories, L.P. at 1-855-425-8722.

To learn more about serious but rare side effects and full Important Safety Information, visit www.RestylaneUSA.com.

FOR EVERY LOOK

LOOK NO FURTHER THAN RESTYLANE® FILLERS

THE FINISHING TOUCH AFTERCARE TIPS

DON'T SWEAT IT

Minimize strenuous exercise and excessive heat and sun within the first 24 hours

LOOK, BUT DON'T TOUCH

Avoid touching the treated area, and don't apply any creams or cosmetics before your skin has healed completely

PLAY IT COOL

If the treated area is swollen, you can apply a cold compress or ice pack for a short period
